Course Expectations

From this course you should expect to obtain a basic understanding of the theories and techniques involved in modern cedar strip boat building. You will be given resources that will enable you to locate materials and tools that will be necessary for you to build your own cedar strip, canoe, kayak or rowing boat. You will observe and assist in the layout, construction, fiber glassing and finishing of a boat.

Please save and print this form. Complete the registration form below and remit with your tuition check. Save the top half for your records.
