

Wood Paddle Making 201

The Mackinaw Watercraft Canoe and Kayak College

Paddle-making

Mackinaw Watercraft, LLC owner and designer Allen Deming will offer a wood paddle making class for beginners and experienced woodworkers.

This two hour class will provide instruction and insight for making Allen's laminated canoe and kayak paddle designs. Using live demonstrations and written instructions, a step by step process will reveal his method for creating beautiful and long-lasting canoe and kayak paddles.

This class will teach you how to make both straight and bent shaft canoe paddles as well as a two piece kayak paddle. An illustrated instruction booklet will be provided to each participant

In this two hour class you can expect to learn how to make laminated canoe and kayak paddles. We will discuss optimal woods, fiberglass and epoxy usage. An illustrated instruction booklet with plans will be provided to each participant.

Take home kits will be available for an additional fee.

Cost: \$35.00

When: Saturday, October 7, 2017

Time: 10:00 to Noon
